British Destroyers Convoy English Shipping,
But Dutch Vessels Are Expected to Brave Sub-
marine Perils Unarmed.

(By Associated Press Cable)

The Hague, via London, February 24.—The stoppage of a considerable
number of neutral sailings to British and Allied ports has raised an issue
between Great Britain and Holland, according to the Gazette De Holland.

The paper says:

"We can hardly expect Great Britain to rest contented while Germany
seizes such advantages by illegal threats and pressure."Great Britain has made counter demands amounting to a compulsory
resumption of traffic with herself."The situation can only be temporary—Dutch shipping must be resumed in
due course, as the nation's life depends on its overseas commerce."Dutch merchants are sensible to the loss that would accrue if the con-
nection with Great Britain was more or less severed; but it is one thing for
a fleet of British merchantmen to cross the North Sea with a convoy of de-
stroyers, and another for Dutch ships to cross alone and unarmed."Both countries have a large interest in solving the problem set by Ger-
man ruthlessness, and the solution will not be found in hasty demands and
angry words."

Washington, February 24. — Senate
Democrats today determined on a
fight to a finish with the Republican
minority over the revenue bill and
preparedness legislation and have
practically decided to hold Congress
in continuous session from now on
even to the extent of holding through
Sunday, March 4.The conference was held after Re-
publican Senators had dropped all
disguises in the filibuster and had
participated in an obstructive debate
for two hours on the legislative ap-
propriation bill conference report."We are going to insist on keeping
this revenue bill before the Senate, no
matter what happens," said Senator
Simmons."The whole preparedness program
and the destiny of the nation is de-
pendent upon this bill and if the Re-
publicans want to take responsi-
bility for imperiling the country they
will have to take the blame."There will be no compromise on
this measure; and if the minority pro-
poses to keep up this filibuster, we
shall have to fight them with a con-
tinuous session of the Senate."TEUTONIC PLANES

COLORED MEN IN CUTTING AFFRAY ON NORTH STREET

Blaine Hurley and Sam Maxwell Mix it Up, and Maxwell Uses Knife With Telling Effect—Locked Up.

A cutting affray occurred on North North street, late Friday afternoon, as result of a clash between Blaine Hurley colored, of this city and Sam Maxwell, colored and well known fighter of Eber.

The cutting is alleged to have occurred after the two men had clinched and used their fists freely a number of times, and after Hurley had chased Maxwell a considerable distance up North street.

The first trouble was noticed in front of the High School building just as the pupils were leaving the structure. The two men had clinched in the alley across the street, and Maxwell, breaking loose, started to run into the street, pursued by Hurley, causing great excitement among the children. As he reached the sidewalk Maxwell tripped and turned completely over.

In wielding the large knife which he carried, Maxwell slashed Hurley from under the left ear to the point of the chin. This wound while not deep, bled profusely and required eight stitches to close. Hurley had been drinking heavy, it is claimed.

Both men were placed under arrest and locked up in the county jail, their preliminary hearings being set for Saturday afternoon at 2 o'clock.

So far as known Maxwell who for many years has worn his hair eight or ten inches long, had never been in serious trouble before. Hurley has been arrested a number of times upon various charges.

Local Team Finds the Crooksville Bunch Easy Picking, But the Athens Boys Prove a Little Too Much—Portsmouth Slated.

After giving Crooksville one of the worst trouncings one basketball team ever gave another, Washington Hi, in the Southern Ohio High School Basketball Tournament at Athens, was defeated by the Athens Hi boys in one of the fastest games of the tournament, the score being 21 to 9.

When Washington tackled Crooksville in the morning series it was like stealing from a blind boy, and the finish stood 32 for Washington and a paltry 2 for the Crooksville lads.

Washington was rated as one of the possible winners of the tournament and there was considerable rejoicing after Washington's back was placed on the mat by the strong Athens bunch.

After the closing games Friday night Chillicothe, Athens, Gallipolis and Portsmouth were the real contenders left, with the odds favoring the latter.

The semi-finals were staged for Saturday morning and the finals for Saturday afternoon.

Nine Reasons Why You Should Buy an

Oakland

\$875 Sensible Six \$875

LOOK at the Oakland Six from any angle, study it as a complete machine, or as a thing of many separate units—whatever your viewpoint, this car appeals to your common sense. It satisfies your desire for good investment, for power, comfort, and performance, for attractive lines and distinctive style—and it does all this at a cost which good judgment tells you is a sensible price.

The new Oakland model is Sensible because it is a Six. It has the flexibility and power linked with simplicity of construction and economy of operation which users of cars have found to be best obtained in this type of motor.

It is sensible because it is a powerful car. The Oakland Six motor develops 41 H. P. at 2500 R. P. M. It gives 1 H. P. to every 53 pounds of car weight and this is greater proportionate power than is given in any other stock car we know of.

It is sensible because it has a high speed, overhead valve motor. High speed motor means economy, flexibility, and power at the speeds you use most. Valve-in-head construction means greater efficiency of fuel, and in the Sensible Six it means unusual accessibility of valves and cylinders.

It is sensible because it is a light weight car. The Sensible Six weighs 2150 pounds, yet it is a big, powerful, easy riding car, strongly and rigidly built throughout. This insures economy of tires and fuel.

It is sensible because it is a very roomy car. The wheelbase is 112 inches, and because the motor is compact, the body of the Sensible Six is extra long. There is 6 inches more leg room than in our big Model 32, the seats are wider and the sides are higher.

It is sensible because of its wonderful riding qualities. Big, oversized tires—32 in x 4 in. long, semi-elliptic, 51 in rear springs and increased wheelbase have greatly improved the road action of the new model, and makes it one of the most comfortable and easy riding cars ever built.

It is sensible because of its low cost of operation. The Oakland Six will consistently give its owners from 18 to 25 miles of travel to every gallon of fuel. Because the tires are bigger than needed for the weight of the car, tire mileage is much above the average.

It is sensible because it has "made good." Model 34 is not an experiment, but a known quantity—the product of time tested experience and actual road service. It is a continuation of and improvement upon the Oakland Model 32, which is being used today by more than 25,000 highly satisfied owners.

Lastly, it is sensible because of its price. Considering all the above mentioned features and superiorities of the Oakland Six, its price is extremely reasonable. At \$875 it represents the very limit of motor car value, because it gives more power, more body room, bigger tires, and more built-in service, than other cars of its type and price.

The Community Sing

The Cecilians have contributed generously to Washington's music; have given pleasure in many recitals of distinct merit and have fostered musical culture in every way possible, but none of their efforts have so appealed to the people of Washington as a whole as the "Community Sing," inaugurated under their auspices last Sunday afternoon.

It struck a popular chord. People who had never had been known to sing welcomed the idea and, going to listen, found themselves joining in the great volume of song that swelled through the auditorium before they realized that they too were a part of the splendid chorus.

Everyone found the hour of singing one of utter pleasure and especially were the grand old hymns enjoyed. Are there any songs in which the beauty and the dignity of the music and the inspiration of the words are so perfectly blended?

If the "Community Sing" does nothing more than revive a love for the hymns and familiarize young people with them it has accomplished something greatly worth while.

People love to sing the good old hymns and yet the younger generation often finds them unfamiliar and congregational singing in many of the churches all over the country could be much improved upon.

The enthusiasm aroused by the "try out" of last Sunday demanded a second Sing tomorrow and the "Community Sing" bids fair to become an established custom.

It is a mighty good thing for Washington too, and has within it manifold possibilities.

A Solution

How would you like to try a grasshopper croquette when grasshopper season rolls around next summer, if present prices keep on going up?

That would be nice and economical, costing nothing but a little hustle and even then the grasshopper would help and "hop to it."

This is a boni fide suggestion and it comes from an eminent English entomologist, Dr. L. O. Howard, who declares that insects make excellent foods and the prejudice against them absurd.

To prove his theory Dr. Howard recently invited some English scientific friends to a luncheon in London, where an inviting dish of white grubs, the larvae of the beetle, was served. Prepared as a salad, with crisp lettuce and mayonnaise they were pronounced very palatable.

France, Germany and Russia have already pronounced many insects good food. But to the active grasshopper recent analysis gives the highest food value.

Professor C. V. Riley served guests with grasshopper croquettes and curry of grasshopper and both pleased their palates and baffled their inquisitiveness. A hotel chef of reputation declares that a grasshopper broth can hardly be distinguished from crawfish bisque—an admitted delicacy.

The Swedes use ants to give a peculiar and piquant flavor to their native whiskey. White ants are a considerable article of commerce in the Levant. Prepared with sugar they are sold in the markets of Constantinople.

Here's an easy solution of the high cost of living if diet experts continue to pronounce grasshoppers wholesome and ants delicacies.

"Uneasy the Head."

An undercurrent of dissension among the people of Germany which is said to have been growing with the prolongation of the war and its hardships and the ever receding promise of signal victory has found a crater in a society known as the "Association of Male Citizens of Southern Germany," through which issues a menacing pamphlet calling to account the Kaiser and the Hohenzollern family.

The sting is contained in an article from the pen of "Heinrich Sieger," a pseudonym, it is believed, used as a veil by some influential partisan of the Bavarian house of Wittelsbach.

It scoffs at the statement that Germany will "fight to the last man" and will enroll "women and old men, if necessary," as a means powerless to stave off ultimate defeat, and sharply asks the Kaiser if, when the crucial moment comes, he will be prepared to sacrifice himself for the German people as Napoleon did for France.

Germany, this mysterious writer predicts, is to open her eyes soon on a vision of catastrophe which will force her to decide on "deposing the King of Prussia in favor of a Bavarian ruler." He continues with a eulogy of the house of Wittelsbach and urges such a dynasty as the "necessary security for a European peace" and the realization of a "greater Germany."

"With the disappearance of the Hohenzollerns," he confidently assures, "it will be possible for Germany to promote and cement cordial relations with England, as has happened in Great Britain's relations with France."

A feeling very much of the same sort has taken root in our own country in the past several months of the war, and on all sides it has been predicted that the present German Emperor will not outlast the great struggle.

Poetry For Today

BOB WHITE

"Shrill and clear from coppice near.
A song within the woodland ringing,
A treble note from silver throat,
The siren of the fields is singing—
Bob-Bob-White

The elder flowers in snowy showers
Upon the velvet turf are falling.
And where they lie the soft winds
sigh.

The while the flute voice is calling—
Bob-Bob-White
And far across the yellow grain
The wafted echo swells again—
Bob-White!

The purple mist by sunbeams kissed
Drifts upward toward the morning's
splendor;
And through the haze of shaded ways
The plaintive reed pipes low and tender—
Bob-Bob-White

While fainter, sweeter, softer grown
The answer on the breeze is blown—
Bob-White!

The shadows sleep in hollows deep;
The dewy pawpaw leaves are thrilling
The silence broods o'er solitudes
Unbroken, save one pure note trilling
Bob-Bob-White

So pure, so clear, so sweetly rare,
The answer steals upon the air—
Bob-White!

O song of youth! of love and truth!
Of mellow days forever dying!
Still through the years my sad heart
hears

Your tender cadence sighing, sighing
Bob-Bob-White
And far across life's troubled ways
The echo comes from boyhood days—
Bob-White!

SHOW ATTRACTS
MANY VISITORS
THIS AFTERNOON

Tonight Brings to Close Most Successful Affair of Kind Ever Held in the City—Plan Another Next Winter.

Tonight will bring the corn and auto show to a close, after one of the most successful events of like nature ever held in a city under 10,000 in the state of Ohio.

From start to finish the show has been of great educational value as well as of deep interest to all persons in general, and the committees in charge have spared neither time or expense in making it a thorough success in detail, even though it will be necessary for the guarantors to make up a deficit of a small sum, representing the expenses above the receipts, the show costing fully \$1500.

Saturday morning the attendance was fair, but in the afternoon hundreds of people thronged the big building and another large crowd was expected for the night session.

A band concert of great beauty was given Saturday afternoon and another equally good concert will bring the show to a close tonight.

The enterprise in making the corn show really worth while, and an event which has attracted hundreds of persons from all over this section of Ohio is characteristic of those behind the event, and it is their intention to make the corn show, domestic science and domestic arts, and the auto and machinery exhibitions an annual event, and if possible to make next year's show exceed the present one.

It has been suggested that the sales barn be used next year, and if this is done there will be much greater space for displays of all kinds.

CRAIG COMPANY
READY FOR WORK

The C. L. Craig Manufacturing Company was recently incorporated with a capitalization of \$10,000, and within a short time will become actively engaged in the work of manufacturing tank boats, door latches and other special articles of great ingenuity and for which there promises to be a great demand.

The incorporators and organization follows: J. Earl McLean, president; James Ford, vice president; C. L. Craig, secretary; Harry F. Brown, treasurer, and L. A. Mark.

It is the intention of the company to operate the plant in the western part of the city, and to push the sale of the articles manufactured.

FOR FOURTH TIME
LAND IS OFFERED

The W. A. Badger land, consisting of 47.26 acres and located in Paint township, was offered at Sheriff's sale from the court house steps, Saturday afternoon, but no bids were made, and the sale again was declared off, and the land will be re-advertised.

This is the fourth time that the land has been submitted for sale and each time no buyer has been found.

In Social Circles

Miss Minnie Light presented one of her most advanced piano pupils, Miss Helen Teeters, in recital work at her studio Friday night. Miss Louise Larrimer, contralto soloist, assisted Miss Teeters in a beautiful program of real concert merit.

The studio was filled with guests, who expressed approval in a number of encores.

Miss Teeters rose to the demands of an ambitious program with a display of musical talent which was a revelation to many of the guests, hearing her for the first time.

The range of her program covering the heavy, the light, the brilliant and the melodies of romance, Miss Teeters showed herself a versatile pianist. The delicacy of her touch aroused special admiration.

Perhaps the number of greatest brilliancy in which she most excelled was the Rachmaninoff Prelude, C Minor.

Miss Larrimer's songs were extremely pretty and well suited to her young voice, a very musical contralto, sweet and rich.

Miss Marion Christopher did excellent work as the singer's accompanist.

The following program was rendered:

Ballet—op. 36 No. 5—Moszkowski
Song—Who Knows?—Ernest Ball.
A Sketch—Aronsky.
Song—Angel Land—Ciro Pinsuti.
Prelude, C Minor—Rachmaninoff.
Song—As the Dawn—Otto Cantor.
(a) Prelude, B Minor, —
(b) Prelude, A Minor, —
(c) Prelude, C Minor—F. Chopin.
(d) Album Leaf—Gutzmer.
(e) Romance—B. Henry.
(f) Ghosts—Schyette.
(g) Reverie—Debussy.

A Frances Willard Memorial Fund program was in charge of Mrs. Frank Kennedy, who gave in a short talk, the origin and uses of the fund. A beautiful tribute to the life of Miss Frances Willard was written and read by Mrs. Frank Carpenter.

The Home Guards quartette Misses Dorothy Briggs, Dorothy Dick, Mabel Sunkle and Laura Brownell, accompanied by Miss Winifred Hicks, a promising young violinist, furnished two temperance numbers which were much appreciated.

Christine Moler, Dorothy Dick and Forest Smith each gave pleasing temperance readings. An interesting paper on the life of Frances Willard was read by Mrs. Ola Boyer.

At the close of the program a liberal collection was taken for the Memorial Fund.

Fourteen new members were added to the roll. The meeting closed with a social hour during which light refreshments were served.

RAILROADS STRIKE WHILE IRON IS HOT

Breezy Notes From Ohio Capital, Dealing With Matters and Men.

By Associated Press Dispatch.

Columbus, February 24.—Decision of the Ohio railroads to renew the fight started two years ago for a 2-1-2 passenger fare in Ohio was being discussed in legislature circles here today. Railroad passenger fares in Ohio are limited to two cents a mile now under a law enacted by the legislature several years ago.

The introduction of a 2-1-2 cent fare bill is expected in either branch of the General Assembly next week. Railroads are said to have been prompted to bring up the matter at this time by the developments before the utilities commission in the hearings on the coal car shortage.

After a meeting of railroad officials here yesterday it became known that the chief argument for the increase in passenger fares will be the increasing of the revenues of the railroads, thereby enabling the roads to buy more equipment and thus relieve the car congestion. Some of the railroad officials it is said are not enthusiastic over the proposed fare increase because of the effect it might have upon other pending legislation considered detrimental to the interest of the railroads.

The Garver bill amending the present laws so as to compel persons having suits against railroads to bring the suits in the county in which the action arose or in which the plaintiff lives, will be up before the House this week for passage. It is being opposed by organized labor.

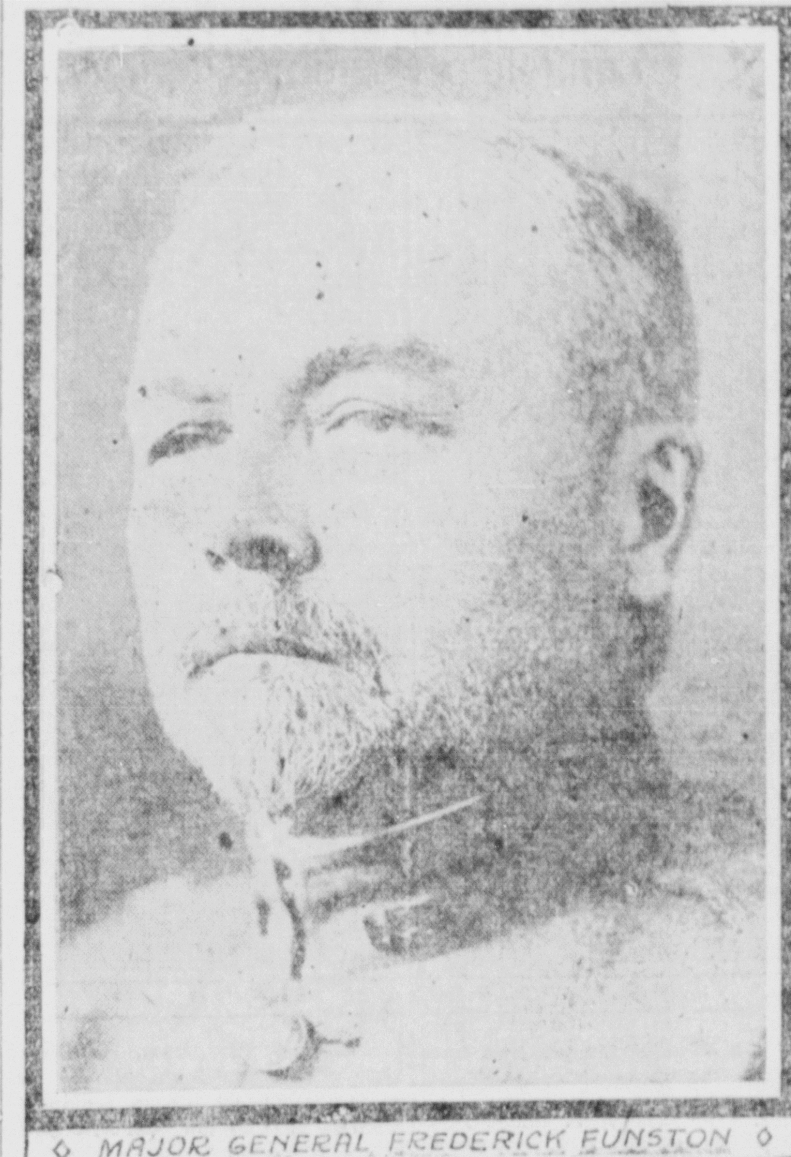

The Ohio Water Works' association has submitted to Governor Cox and the legislature several bills proposing to increase the salaries of the members of the public utilities commission to \$6,000 apiece and increase the number of the commissioners from three to five. One bill would provide for assessing upon the railroads and public utilities \$100,000 a year for the expenses of the commission.

Cleveland coal operators whose mines are located in eastern Ohio are expected to present their views on the coal car shortage situation before the public utilities commission here Monday.

Ottawa county, the great peach producing county of Ohio will not have more than a half crop this year, according to reports reaching N. E. Shaw, state nursery and orchard inspector. Extreme cold, weather is said to have damaged the prospective crop.

The stock was busier in Cleveland during the month of January than ever before, according to records of

Full Military Funeral for Late Major General Frederick Funston

MAJOR GENERAL FREDERICK FUNSTON

The funeral of Frederick Funston, the youngest major general in the United States army, upon whose shoulders the active Mexican situation at the border rested for the last two years was held today in the national cemetery at the Presidio at San Francisco. He died suddenly at San Antonio, Tex., when he collapsed with a child in his arms. He was fifty-two years old. He leaves a wife and three children in San Francisco. A full military funeral was provided for the dis-

tinguished soldier. The sudden death of General Funston sent a wave of sorrow rippling through the nation. The hero of the Philippines campaign and commander of the southern department of the United States army was held in high esteem.

From high government officials came expressions of the deepest sorrow at General Funston's death. From President Wilson down to the rawest "rookie," who is seeing service on the border, he is sincerely mourned.

COLD STORAGE INTERESTS HIT

(City American Press) Washington, Feb. 24.—An amendment to the revenue bill, empowering the president to seize and resell to the needy foodstuffs "wrongfully held for the purpose of unjust increases in prices," in violation of anti-trust laws, was introduced in the senate by Senator Lewis, administration whip. The amendment is aimed at the cold storage interests, which the federal trade commission is known to hold largely responsible for the "resent food situation."

HEAVY RETIREMENT IN CIVIL SERVICE

(Associated Press Cable.)
Manila, February 23.—While every bureau of the Philippine government has suffered in the past six months since the passage of the law which enables the American civil service employes of more than six years standing to retire on a small pension extending over three years, the bureau of agriculture reports the heaviest loss from resignations and retirements. Fully fifty per cent of the Americans in this important bureau have left the government service.

Adriano Hernandez, a Filipino, the director of the bureau, in published statements denied that these resignations have affected the efficiency of the bureau. He states that for some time past Filipinos have been acting as assistants to the Americans who have retired, thus gaining training to take up the work the Americans leave. Of the 21 divisions of the bureau, seven are now entirely in the hands of Filipinos while the remainder have American chiefs with Filipino subordinates training to take their places.

SAYS RURAL LIFE LACKS STIMULUS

By Associated Press Dispatch.
Columbus, O., February 24.—Rural life in Ohio must be stimulated if the farm is to retain its young men, in the opinion of Dr. Charles Snively, professor of economics at Otterbein University.

Dr. Snively recently asked an audience of 150 rural residents how many of them belonged to a country literary society and had taken part in an old fashioned spelling bee. Not a hand was raised.

WHAT CUYAHOGA HAS CONTRIBUTED

By Associated Press Dispatch.
Cleveland, O., February 25.—Cuyahoga Co. last year gave the state 33 percent of the \$124,000,000 increase in the real estate duplicate and 25 per cent of the \$206,000,000 increase in the personal property duplicate, according to County Auditor John A. Zanger.

Cuyahoga county real estate valuation increased \$42,000,000 and the personal property valuation increased \$51,000,000.

DECLARES CHERRY TREE WAS MYTH

By Associated Press Dispatch.
Columbus, Ohio, February 24.—Another good story has gone the way of Santa Claus and Adam and Eve and the forbidden apple. Dr. William D. Deuschle, president of the Columbus board of education, in a facetious address before the Teacher's Federation, not only places George Washington's cherry tree story in the same category with the Garden of Eden tale but adds that in his opinion the latter tale would have been improved had Father Adam chopped down the apple tree.

Break With Germany Made Penfield's Position Unpleasant

AMBASSADOR AND MRS. PENFIELD

In the days of tension that have followed the breaking of diplomatic relations with Germany the position of Ambassador and Mrs. Frederic C. Penfield at Vienna has been exceedingly difficult, since it was not doubtful that sooner or later, the break with Austria-Hungary was bound to come. Some time ago it was reported that Mrs. Penfield had stopped her philanthropic activities in the Austrian-Hungarian capital. Mrs. Penfield

was formerly Mrs. Anne Weightman Walker of Philadelphia, one of the world's wealthiest women, ranking in America next to the late Mrs. Hetty Green, it was said.
Mrs. Penfield for thirty months at her own expense maintained a shop in which were produced millions of bandages and wound dressings, an effort to which the late Emperor Francis Joseph gave his recognition by conferring on Mrs. Penfield a high order.

SAMMY IS PLACED OUT OF ACTION

HARTMAN THEATER

(COLUMBUS)

Thursday, Friday and Saturday March 1, 2 and 3—Matinee Saturday.

The attraction at the Hartman Theater on Thursday, Friday and Saturday, March 1, 2 and 3, will be another return engagement of what most successful of modern farces, "Twin Beds," a play which has made New York and the entire country from coast to coast, fairly rock with laughter.

The piece is the work of Margaret Mayo, who gave us also that earlier laughter-producing farce, "Baby Mine." Like the latter piece, "Twin Beds" deals with the troubles and tribulations of modern married folk, in this case three separate and distinct couples being involved in a farcical net of infinitely mirth-provoking intricacies.

A really splendid company is presenting the play this season, under the management of Selwyn Brothers. Mail orders for seats for "Twin Beds" are being received now at the Hartman, and will be filled promptly in order of their receipt.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.
